The beautifully landscaped garden is centred around a 40 m² swimming pool with a spacious paved sunbathing area and a solar shower. An outdoor kitchen with a fireplace and a dining table for eight makes this area ideal for entertaining, enjoying al fresco meals and spending long summer evenings outdoors.

At the rear of the property, there is a storage room for garden furniture as well as an additional outdoor toilet.

The villa's interior combines designer and antique furniture, creating a refined yet warm and inviting atmosphere. The entire villa is air-conditioned, while the lawn is maintained by an automatic irrigation system.

An additional advantage is the possibility of purchasing the neighbouring 1,130 m² building plot together with a 92 m² auxiliary building, both directly adjoining the property. This option offers the future owner additional possibilities for expanding the garden, creating further amenities or developing the property according to their own needs.

The asking price for the neighbouring building plot is EUR 218,000 and is not included in the price of the villa.

This property is an excellent opportunity for those looking for an authentic stone villa with a swimming pool, spacious grounds, privacy and spectacular sea views, whether as a luxurious private residence or as an investment property for holiday rentals.
